- Slatwall is a panel wall material widely used in retail stores to display products and merchandise.
- supermarkets, shopfitting, gondola shelving, display rack, storage cabinet, garage cabinet,
- garage storage system, hard ware chain store, exclusive agent, market place, gallery etc.

Accessories of Slatwall board

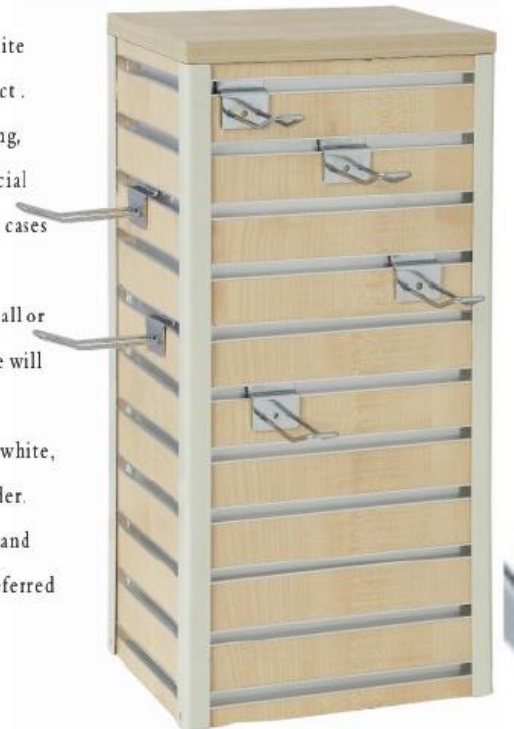

Slatwall accessories are our speciality and we have Lucite and metal displays available to display virtually any product. Our inventory includes speciality displays for golf, diving, skiing, computer, security, and more. If you have a special requirement, please fax or send us a drawing and in most cases we will quote you a price within 24 hours.

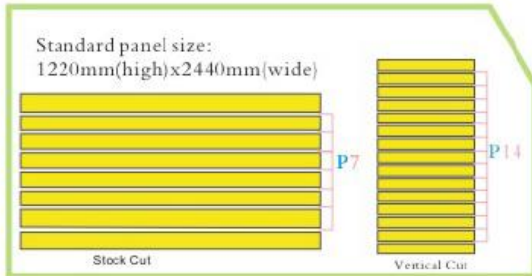

Most accessories shown are available for either Gridwall or Slatwall. Simply inform us of your intended usage and we will ship accordingly.

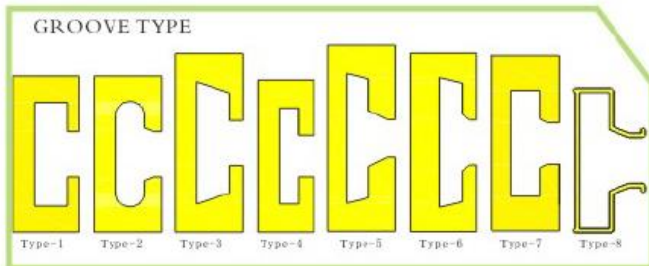

Most of the accessory pieces are available in chrome, white, or black as standard finishes. Please specify when you order. Note that chrome will outlast a painted finish everytime and if you expect heavy hanger use, chrome might be the preferred option.
